There are a babilit's hoose and several farm houses and homesteads with euclosed lands (srable and grass), containing upwards of 3,000 acres, some farms in hand and others in the Soote and which tenants, at very moderate rents, with extensive and valuable sheep walks. The groushing moots contain about the balance of the second of many of the best Sooteh moors both in extent and capelities. They abound in heather and whorteberry, and are in a wild and lovely mountain district. There is good participe, woodcock and sulpe shooting. A public read from Bala passes by the Aber-Hirnant residence. With his excention there are but few public tracks through the property. This important domain possesses numerous valleys, ergoes and passes of great beauty and extent, some being specially selected by tourists for their grandeur and picturesque character, the seenery being equal to the Cumbersand and Westmoreland Lake district. Among the principal valleys are the Vistradiros, the Hirnant, where is the confluence of the two rivers; above which fire and surface of the woundard, a great battle was fought; there are many other valleys, romanile glades and giens, co
